GIVE UP PLANS FOR REST HOME

Strike Interferes With Activities of Endeavorers

The committee named by the Epworth League branches in the copper country, which has been in charge of the plans for rest home for tired mothers at Phoenix, has decided to abandon the effort for this year because of the strike. The building which was converted into a rest home has been secured for the summer months and activities will be retained until the expiration of the lease, but no effort will be made to send patients there for the rest treatment or to maintain any other activities this summer.

The Epworth League Rest Home was almost complete and ready for opening when the strike was declared. Furnishings had been provided and the home had been placed in shape by Mrs. Mary Barrett, who was engaged as matron. In fact the matrons and other league members had inspected the home and expressed their pleasure at the completeness of the arrangements. No patients had entered the home then, however, and now have entered since the institution has not been able to prove its usefulness this year. It is likely another effort will be made next year.

The annual Epworth League convention at Lake Michigan and the annual Epworth League picnic in the copper country have also been abandoned because of the strike. The annual camp of the Calumet M. E. church has been called off for the entire season.

TEST BLUE SKY LAW

Judge Sessions Will Be Asked for Injunction Against Enforcement.

Grand Jurors August 12.—The grand jury of the county of Cook, Illinois, today returned a verdict in the case of the Blue Sky Law, passed by the recent legislature to prohibit the sale of worthless stocks and bonds in Michigan. The jury will be asked to issue an injunction against enforcement of the law, which went into effect yesterday. Bills asking for the injunction have been filed in the federal court at Detroit.

The Auburn & New Orleans Transfer

SITUATION STILL REQUIRES TROOPS

Will Be Kept in District Until (Serious Danger Is Over)

Continued From First Page.

James Crane and James W. Waddell, head of the Waddell-Mahon corporation. The injunction is sought by Attorney Angus W. Kerr, on behalf of the Western Federation of Miners, to restrain Sheriff Crane from engaging outside men as deputies. Under the statutes, a hearing must be given four days from the date of notice on the defendants.

Lucas to Assert Rights.

Regarding a published statement that a special outside prosecutor would be appointed by the county board of supervisors to supersede Prosecuting Attorney Lucas in all strike cases, the prosecutor today issued a statement declaring he intends to assume entire responsibility and charge of all strike cases as well as other criminal prosecutions. He says:

"I notice an item in one of the local papers that an assistant prosecutor is to be selected by the Supervisors' Committee for the purpose of trying strike cases, and that I was not in favor of trying them myself. Further, that in this work this assistant would supersede me and that I was satisfied with this arrangement. I wish at this time to correct this statement and say that it is not a true statement of the facts in the matter. I am not asking the supervisors for an additional assistant for the purpose of trying strike cases alone. I intend to take part in the trial of every criminal case, whether strike cases or otherwise. I am merely asking for additional help because my office is unable to take care of all the cases that are coming up at this time.

"I intend to fully discharge the duties and obligations imposed upon me by the best of my ability and I will assume entire responsibility and charge of the so-called strike cases as in other criminal prosecutions."

The Painesdale Shooting Affair.

Harry James and Edwin Polkinghorne, two deputy sheriffs charged with being involved in the recent shooting affair at Painesdale that cost Dixie Tamm and Steve Patrick their lives, are held in the county jail without bail on a charge of murder in the first degree. The arrests were made Saturday night on warrants issued by Justice O'Sullivan on complaint by W. H. Vicman, first deputy sheriff.

Four of the men employed here by the Waddell-Mahon corporation, Ralph, Croft, Cooper and Davis, are also wanted on the same charge and cannot be found. It is believed they have left the county.

Humphrey Quick, shift boss at the Thompson, who was on guard at E. shift on the day in question testified in the case against John Kollan, John Stimmick and Joseph Pashquin, who were arrested before Justice O'Sullivan Saturday afternoon on an indictment charge.

Kollan and Pashquin crossed Quick's guard line, which led to the whole trouble. Quick swore he had incidentally mentioned the matter to Raleigh, head of the Waddell men on the range, and Raleigh determined that on arrest be made. Quick declared he had not considered it a very serious matter.

Quick declared he wasn't sure where the first shot came from, but thought it was from the house. The first shot had been fired before Quick saw a gun in the hand of any deputy. After that he testified every one of the men in the officers' party produced a gun, but he didn't know whether all of them fired.

Investigation has revealed the marks of thirteen bullets in the Patrick house, none of which could have been fired from inside, according to the prosecuting attorney. He characterized the shooting as "a shameful affair and entirely unexcused."

Kollan, Pashquin and Stimmick were released on their own recognizance following the adjournment of the hearing for three weeks.

Federal Examination.

The examination of Louis Fodor, charged with assault with intent to kill on a complaint issued by Undersheriff Heikila, was begun this morning in the court of Justice Fisher. This complaint was made as a result of the alleged shooting in connection with Fodor's arrest by Heikila on a warrant charging assault with intent to do great bodily harm on Gust Olson.

Prosecuting Attorney Lucas appeared for the people and Attorneys Kerr and LeGendre for the defendant. Four witnesses were examined.

Undersheriff Heikila and Deputy Will Kearl, who went to the Fodor home for the purpose of making the arrest, testified they found him hidden in a closet and that when the door was opened the defendant fired at them with a revolver. Heikila grasped with him for possession of the gun and finally succeeded in taking it from him. Both men testified they did not inform Fodor that he had a warrant to serve on him before making the arrest, but stated that his wife was informed of their purpose in visiting the house.

gun, but did not see it in Fodor's hand. Corporal Jones testified before he entered the room he heard one of the officers call "Come out of that" and that there was some other conversation, but he could venture no opinion as to how much conversation or what it consisted of.

George Law testified but could add little to that already mentioned.

The hearing was adjourned to August 19, to provide for the transcription of testimony.

Waives Examination.

Steve Barich, who was arrested some time ago on the charge of carrying concealed weapons, the complaint having been issued by Robert Roskelley of Wolverine, was arraigned before Justice Fisher for hearing this morning. He decided to waive examination and was bound over for trial at the next term of circuit court, bonds being fixed at \$200 which he secured.

Gets Promise of Support.

A telegram, signed by John Fitzpatrick, president and E. N. Nockels, secretary, conveying the "financial and moral support" of the Chicago Federation of Labor, was received at headquarters of the Western Federation of Miners today. The message included many references to the "murder" of strikers and the strike situation.

The President Mahoney of the Western Federation of Miners has gone to Chicago on a brief business trip. Mr. Mahoney is expected home tomorrow.

Religious Services Held.

Religious services for the First and Third regiments were conducted at the brigade encampment Sunday morning at 9 o'clock by Chaplain White of the First regiment. Officers, privates and many local residents attended. The sermon of Chaplain White was impressive and beautiful.

Several musical numbers, including a solo by Sergeant Beck of the First regiment, were rendered. A reception to members of the militia was held at the Laurium M. E. church later in the forenoon. In the evening, Chaplain White preached at the First Baptist church.

THAW ESCAPES FROM ASYLUM

Doubtful Whether He Can Be Returned to New York State

Continued From First Page.

was reticent, and continued to assert his innocence.

Warrants have been issued for the five men, who aided Thaw in his getaway. William Gordon, proprietor of the Holland hotel, near Matteawan, where the five men stopped two days prior to the escape, came here to tell district attorney longer what he had observed about the men. Gordon's chauffeur and two employees of the state hospital, who saw the car with Thaw inside dash down the hill from the institution, gave the authorities descriptions of the men.

The description of one of these men, Richard Butler, tallies with that of a former state assemblyman of the same name of New York City.

May Have Boarded Yacht.

New Haven, Conn., Aug. 12.—The theory that Thaw embarked upon a yacht near South Norwalk, seems to be supported by facts. Shortly after 5 o'clock yesterday afternoon, R. H. Fitch, a business man living near Wilton, at the junction of the Ridgefield and Danbury roads, was hailed by a man driving a black touring car, who inquired the road to Stamford.

The car had no passengers. Twenty minutes later a second car, also with a New York number, stopped at Fitch's and made a similar inquiry. The chauffeur remarked he had "become twisted." In the car were three men and a woman. The woman was nervous and the man beside her was very impatient, urging the chauffeur not to continue talking. The man had a dark mustache and a blue serge suit. The car departed and inside twenty minutes a third car stopped at the house. The man who sat beside the chauffeur asked the direction to Stamford, laying stress on his desire to avoid Norwalk. Fitch had not heard of Thaw's escape.

From prior news-papers today Fitch recognized the one passenger in the second car as Thaw and the woman, he said, "somewhat resembled pictures of Mrs. Godfrey Whitney, formerly Alice Thaw."

"In order to relieve my mind of any doubt whether Harry can be brought back to New York from Pennsylvania, I will consult counsel," said Mrs. Thaw this afternoon. I don't want Harry to jeopardize himself by coming to Elmhurst."

State Officials Mute.

Harrisburg, Pa., Aug. 12.—State officials declined to talk of what would be done in case Thaw turns up at Elmhurst.

Million Spent in Defense.

It is conservatively estimated that the members of the Thaw family spent nearly a million dollars defending young Thaw at the trials for slaying White and in attempting to secure his liberation from Matteawan. Former district attorney Jerome once estimated the trials and hearings cost the state nearly half a million.

A regular meeting of Calumet lodge, No. 124 I. O. O. F., will be held Tuesday evening when first degree work will be conferred. Visiting brothers and especially members, who are members of the Michigan National Guard, are cordially invited to attend.

Birchard Sieghman, Sec.

M'DONALD CASE IS NEARING END

Calumet Man May Be Given Congressional Seat This Week

It is being stated apparently on authority that William J. McDonald, Progressive, will be seated as the representative in Congress from the Twelfth Michigan district this week by the unanimous vote of the Democrats of the House and by many of the Republican voters, says a Washington dispatch.

The allegation is that every Democratic member of the election committee having the contest in charge will vote to make a favorable report on McDonald's contest and that on this basis there will be no Democrat votes against him when the report comes up in the House for action.

It appears that the Republicans throw away such chance as they had to defeat McDonald when they permitted H. O. Young's attorney to continue in the case after Young's resignation. He based his case largely upon the charge that McDonald was not legally nominated. The Democrats were aware that this phase of the case came up during the campaign and that at that time Young waived any right he might have had to contest the validity of the McDonald nomination by saying he would not take advantage of a technicality to get rid of him as an opponent.

For Young's lawyers now to set up the claim that McDonald was not legally nominated appears to have struck the Democrats as untenable. The Democrats also are struck with the argument that with the big strike pending in the copper country of Michigan that the district is peculiarly entitled to representation in Congress at this time.

Oral arguments will be made Monday instead of Tuesday, as originally announced, the case having been advanced by one day. It is understood the speaker is willing to have the election case taken up on the floor just as soon as the committee reports.

UTAH COPPER.

Report for Second Quarter of Fiscal Year a Favorable Document.

The quarterly report of the Utah Copper Co. for the three months ended June 30th which is just issued shows that the company is very rapidly recovering from the effects of the strike at the company's property, which, although settled some months ago has exerted an appreciable effect upon operations.

From the showing in the report it would seem that operations from now on should proceed from the point which was reached just before the beginning of the labor trouble last September. At that time, or in the previous month of August production of copper totaled 11,841,162 pounds, the high water mark, while in the next month only 6,965,144 pounds was produced, and in October 2,127,792 pounds. The October figures represented the low point and from that time on there has been a steady gain in production on to June, the last month reported on when 11,637,949 pounds was produced. With a continuance of prevailing conditions, July should set a new high record mark.

With one exception, the banner third quarter of last year, financial results for this quarter were the best ever reported, total net earnings aggregating \$2,318,753 as compared with the high record of \$2,926,468.

A statement of no little importance, contained in the report is that construction work is practically finished, and before the end of the present quarter all construction work of every nature will be done away with. The construction charges, which have been quite heavy and have swelled the cost per pound of copper produced, as they have been included in this item will be entirely eliminated. The additions to the Arthur plant are all completed and the sole remaining work is at the Magna plant and this will be completed by the end of the month. A perceptible lowering of costs should be shown from now on, as a result of the completion of this work.

As a result of the delay in stripping operations, caused by the strike, the grade of ore is still below normal, due to the necessity of mining large areas of very low grade and partially stripped ground. The lower grade ore and the capping which was treated along with the ore resulted in an average copper content of 1.287 per cent. This is, however, slightly better than in the previous quarter when the ore treated averaged only 1.245 per cent copper.

Costs for the last quarter also showed an improvement, the average cost per pound of net copper produced during the quarter, after allowing for smelter deductions and without crediting miscellaneous income being 8.322 cents as compared with 10.175 cents for the first quarter of the present year. This result compares with a cost of 7.797 cents for the third quarter of 1912, the low record. There is every reason to believe that the cost for the present quarter will be better than that of June 30th and will be a closer approach to the record.

NOTICE TO PARENTS.

The supply store of the Calumet public schools will be opened Monday, August 18th. Parents are requested to purchase their children's books before Sept. 2nd in order to avoid the rush and waste of time that usually occurs at the opening of school.

TOWNSHIP WORK WELL UNDER WAY

Extensive Improvements on Calumet to L. L. Road

Calumet township road work is well under way. Improvements started early in the summer on the Lake Shore road have been completed and Overseer Burrill now has a force of men re-surfacing the road from Calumet to Lake Linden, which extends for about two and one-half miles in Calumet township. It is expected the work will be completed in about one month.

1,400 feet of eight-inch pipe ordered from the Carlton company a short time ago for the extension of the pond water mains in Florida location, for fire protection, has arrived and work will be commenced next Monday. When this work is completed, any part of the location can be reached with about 1,500 feet of hose, a considerable improvement over the former protection. Three hydrants will be installed. The course of the new main was surveyed Saturday.

New County Road.

Work on the new county road between Calumet and Hancock is progressing nicely under the direction of the county road commission and the highway, which was commenced last summer, will likely be completed in a few weeks. The road from Muskegon to Tontona has been opened to traffic and good highway is being made on the last stretch from Tontona to Rhoads, and a distance of about a mile. The grading has been completed and the re-surfacing started.

Miss M. Huebner, who recently disposed of her millinery business in the Nolan block, Cleveland avenue, is planning to move to Mr. and Mrs. C. T. Riley of Calumet, has purchased a millinery establishment in Everett, Wash. Her sister, Mrs. Sylvester and mother will join her within a few weeks. Miss Huebner's mother is now visiting relatives in Wisconsin, and she will be joined by Mrs. Sylvester within a week, or as soon as she closes on her affairs here. Miss Huebner and her sister were in the millinery business in Indianapolis for over seven years.—Mining Journal.

Louisville factories consume 35 per cent of its water supply.
